

ESG-CV Updates

- **ESG-CV Notice Summary**

HUD has created a three-page handout to summarize the twenty-four-page ESG-CV-Notice that has been added to our Program Forms. This summary frames many of the contents of the ESG-CV Notice in a format that is more accessible to readers. Although it is easier to read than the ESG-CV Notice, the summary is not as comprehensive. It does not cover every aspect of the ESG-CV Notice and ESG-CV applicants should still read the notice in full.

- **ESG-CV Application Training Video**

On Slide 29 of the “ESG-CV Application Training Video” the list of required attachments for the Application included a Letter of Support. This is not required for ESG-CV and is absent in the Application, the Application Training Slides, and the Application Guidance. Although still present in the video training, **a Letter of Support is not required for the ESG-CV Application.**

- **ESG-CV Desk Guide**

Page 10 of the ESG-CV Desk Guide incorrectly stated that the spending deadline for all funds under the Emergency Shelter component is March 31, 2022. In actuality, **all Emergency Shelter funds must be spent by January 31, 2022.** It should be noted that March 31, 2022 is still the 80% spending deadline for all other components. This has been corrected in the ESG-CV Desk Guide posted on our website as of this update.
