Methodology

The data in this report is gathered from 101 counties in the Missouri Balance of State (BoS) Continuum of Care (CoC). During the night of January 25, 2017, social service agencies and community volunteers in each county complete a survey for each unsheltered homeless individual and family located in the CoC. Unsheltered homeless is defined by the U.S. Department of Housing and Urban Development (HUD) as “An individual or family who lacks a fixed, regular, and adequate nighttime residence, meaning: sleeping in a place not designed for or ordinarily used as a regular sleeping accommodation, including a car, park, abandoned building, bus or train station, airport, camping ground or other place not meant for human habitation.”

Sheltered data is gathered from social service agencies and organizations providing shelter (emergency shelter, safe haven, transitional housing and hotel/motel vouchers paid for by charitable organizations) to homeless individuals and families within the BoS CoC. Together, the sheltered and unsheltered data make up the total number of homeless individuals and families in the BoS CoC.

When tabulating data for unsheltered homeless persons, age, gender and race percentages were calculated using the total of all unsheltered persons surveyed. The Veteran percentages were calculated using the total of all unsheltered adults surveyed, including transition age youth 18-24. The subpopulation categories of disability, those actively fleeing domestic violence, chronic homelessness, severe mental illness and substance use disorder were calculated using the total of all adults, including transition age youth 18-24. Information reported by those surveyed in accordance with HUD definitions. The Youth percentages were calculated using the total of all youth, including transition-age youth living in unsheltered situations.

When tabulating data for reasons for homelessness, individuals may have reported more than one factor or may have elected not to respond to this question. This information is not reported to HUD but can help improve community planning.

When tabulating data for sheltered homeless persons, age, gender and race percentages were calculated using the total of all sheltered persons. The disability, those fleeing domestic violence, and Veteran percentages were calculated using the total of all sheltered adults, including transition age youth 18-24.

Chronically homeless percentages were calculated using the total of all households sheltered to account for both chronically homeless individuals and chronically homeless families. Unaccompanied youth percentages were calculated using the total number of children and transition age youth under 24, living in sheltered situations without a parent or legal guardian.

The “unknown/no...” category was used to represent information unknown at the time of entry into a shelter program or answers left blank or marked “no” on the survey administered to unsheltered homeless individuals and families.

Individuals surveyed may be represented in more than one disability category. Individuals may have more than one disability documented; therefore, the totals in the disability sections of the unsheltered or sheltered responses may not equal 100 percent.

Although the Balance of State recognizes doubled-up individuals and families in the report, the numbers are not reported to HUD due to the federal definition of homelessness. Further, agencies assisting with the count are not required to actively seek information on doubled-up individuals and families.

The numbers in the report that follows may vary slightly from those reported to HUD in May 2017 due to HUD data quality requirements.

For more information on the Point-in-Time Count, please visit the Governor’s Committee to End Homelessness (GCEH) website at www.endhomelessnessmo.org.
Number of sheltered and unsheltered homeless people by region:

Region One:  61  Region Six:  78
Region Two:  12  Region Seven:  88
Region Three:  26  Region Eight:  71
Region Four:  234  Region Nine:  60
Region Five:  439  Region Ten:  154

Number of sheltered and unsheltered homeless households by region:

Region One:  45  Region Six:  53
Region Two:  12  Region Seven:  77
Region Three:  12  Region Eight:  48
Region Four:  127  Region Nine:  44
Region Five:  325  Region Ten:  101
What does homelessness Look Like?

Household & Demographic Profile

**Sheltered vs. Unsheltered**
- Sheltered: 77%
- Unsheltered: 23%

**Single Adults**
- Families: 40%
- Unaccompanied Youth: 6%
- Single Adults: 60%

**Subpopulation Overview**
- Families: 40%
- Single Adults: 60%
- Unaccompanied Youth: 6%

**Ethnicity**
- Non-Hispanic/Non-Latino: 96%
- Hispanic/Latino: 4%

**Homeless Subpopulations**
(determined by total of all adults)
- Mental Illness: 16%
- Substance Use Disorder: 21%
- HIV/AIDS: <1%
- Domestic Violence: 24%

**Veterans**
- 100 Total Veterans
- 98 Households
- 97% Male, 3% Female
- 82% White, 15% African American, 3% Multiple Races, 2% Hispanic
- 17 Chronically Homeless Veterans
- 84 Sheltered Veterans, 14 Unsheltered
- Two Veteran Family Members

**Racial Distribution**
- White: 72%
- Black/African American: 22%
- Multiple Races: 3%
- Asian: <1%

**Who is homeless?**

**Subpopulation Overview**

**Chronic Homelessness**
- 237 Individuals
  - Sheltered: 80% (197)
  - Unsheltered: 20% (48)

**Unaccompanied Youth**
(determined by total of individuals)
- Age 18-24: 80% (56)
- Age <18: 20% (48)

A homeless individual or family residing in an emergency shelter, safe haven, or place not meant for human habitation for one year continuously or with four instances of homelessness that total 12 months or longer. The person must also have a disability that is expected to be long-continuing or of indefinite duration and substantially impedes their ability to live independently.
### Notable Findings

→ The PIT Count Data shows that there was an overall decrease of 187 people from 2016 to 2017 in the reported sheltered and unsheltered numbers.

→ Eight out of Ten regions reported an overall decline in homeless population from 2016 to 2017.

→ 26 Counties reported having both sheltered and unsheltered homeless households.

→ 45 Counties reported having either sheltered or unsheltered homeless households, while 56 reported zero homeless population.

→ All categories of homeless household sub-populations experienced a decline except for chronic homelessness.
